(Practice Stamp)

SUPPLEMENTARY VETERINARY CERTIFICATE FOR THE EXPORT OF PORCINE SEMEN FROM GREAT BRITAIN TO NORTHERN IRELAND

I the undersigned hereby certify that the pig semen to be exported to Northern Ireland on health certificate _____ (*Enter number*) additionally meets the following animal health requirements:

1. The semen was collected from boars on an approved collection Centre which contains only animals that have **not** been vaccinated against Aujeszky's disease and which have reacted negatively to the serum neutralisation test or to the ELISA test for Aujeszky's disease, in accordance with the provisions of Commission Delegated Regulation (EU) 2020/692 (as amended).

2. In respect of Transmissible Gastroenteritis (TGE): -

(a) The donor animals were resident for at least 30 days on an approved quarantine immediately prior to entry into the Semen Collection Centre.

(b) All pigs in the Semen collection centre were free from clinical signs of TGE during the 12 months prior to collection of semen for export to Northern Ireland.

(c) **In the case of Fresh Semen:**

Either:

(i) The donor animals were subjected to a diagnostic test for TGE during the 30 days prior to collection of the semen for import with negative results in each and every case:

or

(ii) All animals in the approved semen collection centre have been subjected to a diagnostic test for TGE prior to their entry onto the centre and (a) routinely while resident on the centre and/or (b) prior to

their exit from the centre, with negative results.

(d) **In the case of Frozen Semen:**

The donor animals were subjected to a diagnostic test for TGE at least 14 days after collection of the semen for import, with negative results in each and every case.
